EFC-217

EMBEDDED FANLESS COMPUTER

KEY BENEFITS

- High reliability, fanless computer with no moving parts
- High performance from the latest generation Celeron quad core processor
- Light weight, small size
- Low power consumption

Compact, reliable and versatile fanless embedded computer providing high processing power with low power consumption. Rugged construction with multiple I/O connectivity and wide voltage input makes this computer ideal for many applications such as machine automation, kiosks, access control or remote monitoring.

SPECIFICATIONS

EFC-217	Small Embedded Computers
CPU	Intel Celeron N2930 Quad Core, 1.86GHz
Memory	2GB DDR3, expandable to 4GB
Storage	1 x SATA 32GB SSD, expandable to 128GB (optional HDD)
	Optional 1 x mSATA
Graphics	Intel HD graphics
Expansion	1 x Mini PCle Slot (Full size)
	1 x Mini PCle Slot (Half size)
LAN	2 x Gigabit LAN Ports
	Optional WiFi/3.5G Mini PCIe modules
I/O	1 x RS232/422/485, 3 x RS232
	1 x USB 3.0, 5 x USB 2.0

EFC-217	Small Embedded Computers
Video	1 x DVI-I
Audio	1 x Mic in, 1 x Line out
Operating System	Win 7/8, Linux
Input Voltage	9-24 VDC
	12VDC 60W AC power adapter
Dimensions	185mm W x 48mm H x 142mm D
Construction	Aluminium
Temperature	Operating: 0°C to 40°C
	Storage: -20°C to 85°C
Certification	CE, FCC ErP Ready
Ordering Information	EFC-217: N2930 Quad Core

TECHNICAL DETAILS

No	Specifications
1	Power Switch
2	Reset Switch
3	Power Led (Green Light)
4	HDD R/W Led (Red Light)
5	Audio Port
6	Mic Port
7	COM Port
8	WiFi Port
9	DC_12V input Port
10	USB 2.0 Port (A Type)
11	Giga LAN Port
12	DVI-I Port
13	USB 3.0 Port (A Type)
14	Audio Port
15	VGA/COM Port
